#15ITB98691K-JAJ – Justice Center Tower Roof Replacement
Addendum No. 3
Page Two

This Addendum forms a part of the contract documents and **modifies** the original RFP documents as noted below:

1. **Question:** Please clarify that since this scope only involves the LP system on the roof, a UL inspection and UL Letter of Findings (which will certify the installation of the roof system) is all that is required after completion of the install. In the lightning protection spec (Section 26 41 13 - 3.4), a Master Label is mentioned which would require an inspection and update of the LP system in the entire facility. Please confirm.

Answer: The County's Consultant would only recommend that a UL Master Label Certification be required for the Lightning Protection System in the event that the existing system or any of the components (existing grounding, roof conductors, down conductors, through-roof connectors and/or air terminals) were damaged during the construction process.
